# LV2

Sweden: M3 Digital World, no 2, March 2010.

## “Audio Pro LV2: Nice swedish pro”

“M3 likes wireless solutions and we like a lot swedish Audio Pro’s powered speakers with built-in wireless receiver.”

“But with Audio Pro’s all earlier well-sounding speaker series in mind the expectations where set high on LV2, the new powered speaker with built-in wireless receiver. And we weren’t disappointed.”

“Oh heavens such sound! We had earlier heard a short demonstration in a small room with LV2 and there were no problem filling even a bigger room with music. First we noticed how much bass these speakers can perform. But the hole soundimage is incredible clean and detailed. The voices are always placed right in the middle of the soundimage crisp and clear, without sounding shut-in or compact and even difficult acoustic instrument came out right. It sounds quite simply so much more, and better, then the system looks like...”

“LV2 sounds extremely good and the solution to stream wireless music is both simple and smart!”

### GRADE

Soundquality: 9

Function/connection: 7

Userfriendly: 10

Price value: 8

Total: 9

### Advantage

Fierce sound!

Super easy to use

Expansion possibilities

### Disadvantage

No option to control play-back

 **audio pro**

SOUND OF SCANDINAVIA
